

# Psychological Health and Safety for Post-Secondary Students Standard

## CSA Group Technical Committee

As at March 7, 2019

Technical Committees have accountability for the technical content of the CSA Standards assigned under its jurisdiction and are responsible for reviewing CSA Standards on a continuing basis with the objective of keeping them up to date and technically valid. Accomplishing this responsibility may include the preparation of a new edition or amendment or withdrawal, providing interpretations of published CSA Standards within its portfolio, and establishing and maintaining supporting liaisons and additional consultations with affected stakeholders. These activities are conducted in compliance with CSA policy and directives and respecting CSA Group commitments as an accredited standards development organization.
